TO WHOM IT MAY CONCERN

Homecare Construction CC, members Mr Koos van Eeden and Mr Jacques van Eeden, built an extension to my house at Noetzie a few years ago and did an exemplary job of it. Our house is situated in virgin forest on the bank of the Noetzie lagoon and they were at all times sensitive to the environment.

Some time after that, when I was involved with the Noetzie Conservancy, they built a board walk along the edge of the Noetzie lagoon and again they did it beautifully, so much so that it was held up as an example by officials of Nature Conservation.

I have no hesitation in recommending them for a contract in a sensitive natural area.

D. T. Fabian
